

Effective January 5, 2015, Florida Motorists Required to Take the Class E or CDL Knowledge Exam Will Be Allotted a Sixty (60) Minute Time Frame for Completion

All knowledge exams (Class E and CDL) will have a sixty (60) minute time limit. The sixty (60) minute time limit will initiate when the first question of each exam is answered. At the start of an exam the customer will receive the following message: *This is a timed exam; you will have 60 minutes to complete the exam. Failure to complete the exam within the allotted time will result in an exam "Failure"*. The customer will be alerted by a prompt when there are fifteen (15) minutes remaining for the completion of the exam. If the customer does not complete the exam within the allotted sixty (60) minutes, the exam record will update us as a failure. This will also count towards the number of exam attempts and the required re-exam fees will apply.

We encourage those required to complete the exam to study the Florida Driver's Handbook, Florida CDL Handbook, or Florida Motorcycle Handbook, all available online at:
